advantages over the old school of stiffening the soles of boots
advantages over the old school of stiffening the soles of boots
advantages over the old school of stiffening the soles of boots
advantages over the old school of stiffening the soles of
the foot; to the pedestrian it gives ease, praventing the foot
from pressing forward in the boot; whils to flat Liouted persons
it is equally advantageous, as the arch or hollow of the foot in
the still preserved; and by this process a walking boot or shoe may
be made with a low heel, and the hollow of the foot not be exposed to the mud, as in the old method. It gives support to all
the muscles of the foot at the same time, and is remarkably easy
surhous who are troubled with corns. Persons required as stand
at the deak will find them a great desideratum.

NEW WORKS IN PRESS. NEW WORKS IN PRESS.

1. VESTIGES OF THE NATURAL HISTORY OF CREATION. I vol. 12mo. (just rendy.)

This is a work of deep interest. It is an attempt to arrange chronocogically that succession of organic relies disclosed in the various stratifications of Geology, and even through symmonous generation and progressive development, to reconcile and lead the whole from first forces and form up to man inclusive, in his cerebral responsibilities to the creator and his revelation.

lation.

2. PYCROFT'S COURSE OF ENGLISH READING, adiapted to every Taste and Capacity. I vol. 12mo.

This course is admirably adapted to promote a really intellectual study of History. Philosophy, and the Belles Lettres, as distinguished from that mere accumulation of words and dates in the memory which passes for education.

USEFUL AND ELEGANT NEW YEARS PRESENT.

D'Israell's Curiosities of Literature D'Israell's Curlosities of Literature.

"This miscellany was first formed many years ago, whe two of my friends were occupied with their anecdotical is bors, which have proved so entertaining to themselves an their readers. I conceived that a collection of a different complexion, though much less amusing, might prove some what more instructive, and that literary history afforded an almost unexplored source of interesting facts. The work it self has been well enough received by the public tojustify it

self has been well enough received by the public to justify its design.

Every class of readers requires a book adapted to itself, and that book which interests and perhaps brings much new information to a multitude of reader, is not to be condemned, even by the learned. More might be alleged in favor of works like the present than can be urzed against them. They are of a class which was well known to the ancients. The Greeks were not without them; the Romans loved them usder the title of *Faria Eruditic; and the Orientalists, more than either, were passionately fond of these agreeable collections. The fanciful titles with which they decorated their variegated miscellanies, sufficiently express their delight.

The design of this work is to stimulate the literary curiosity of those, who, with a taste for its tranquir pursuits, are impeded in their acquirements. The characters, the events, and the singularities of monern literature, are not always familiar, even to those who excel in classical studies. Rut a more numerous part of mankind, by their occupations or their indoreadiest means. This work has proved useful; it has been re-printed abroad, and it has been translated; and the honor which many writers at home have confered on it, by refering

to it, has exhilarated the zenious labor which seven editions have necessarily exacted."

[Author's Preface,
DF The foregoing valuable work, with the "Cariosities or AMERICAN LITERATURE," by R. W. Grisvold, is published complete in one large royal octave volume, and sold for about one quarter of the London price. It forms certainly one of the most valuable works in the Eoglish language, and no while or prints library is amounted. of the most valuable works in the Logish language, and bubble or private library is complete without it.

AUCTION SALES.

BY BANGS, RICHARDS & PLATT. Store 254 Bread

Mr. Cotton has given the private entertainments and made the above thirty-live elections for two reasons—Pirat, to be enabled to affer an entertainment at the Tabermache, of such intrinsic an other an entertainment at the Tabermache, of such intrinsic and the such as the entertainment that noise could resist the emphasis to tetend. Seeingly, to remove every possible objection to the attendance of lanter. About two thousand ladies attended Mr. Colton's entertainment last year, and many more would have attended land they known the character of the entertainment, and that those who were to inhale the Gas had inhaled it before.

Mr. Colton believes the entertainment will be used as to keep the audience in it roar of language for the entertainment will be used as to keep the audience in it roar of language for express, and the autient Medical authority of Europe and America prove that it is perfectly harmless. Mr. Colton would say it regard to the Language Gas entertainments which have been given of late in this city, that his only regret is, that defined a certainments, do not know what a Lagrange for the color of the Colton would say it regard to the Language lady in a land of the color of the Colton would say it recently been powerfully exercised upon the subject of religion. Immediately after inhaling the Gas, whose mind had recently been powerfully exercised upon the subject of religion. Immediately after inhaling the Gas, her eyes closed, and she arose and begin to dance and hop about the room, clapping her hands, and exclaiming, in a subduct tone, "Oh, how happy!—of they sould but issen, if they sould but is to have a horse to herself the sale she had never been so lappy in all her life, and was perfectly willing to inhale the Gas again. This was an uncommon case, but it proves that the prominent feature of a person's character is brought out. The effect of the Gas usually last from one
